This featured Blackcap heifer calf pregnancy by the No. 2 \$Beef sire in the Angus business, SS Objective T510 OT26, goes back to the featured high IMF and high \$Beef Pathfinder sire, GAR Predestined, and the featured GAR Retail Product 2712, a foundation donor female in the Gardiner Angus Ranch program.

The featured donor dam of this heifer calf pregnancy has an individual IMF Ratio of 128, UREA of 111 and the featured grandam has a progeny production record of U%IMF 33@107. The featured donor dam ranks in the top 10% of the breed for Weaning Weight EPD, top 3% of the breed for Yearling Weight EPD without sacrificing carcass genetics as she ranks in the top 1% for both Marbling and Ribeye Area EPD coupled with the fact that she ranks in the top 1% for \$Beef.

This featured heifer calf pregnancy reads with outstanding genetic potential and offers some of the most progressive Angus genetics in the industry.
