

NATIONAL JUNIOR ANGUS SHOW HEALTH RULES FOR ALL CATTLE

HEALTH CERTIFICATION

CATTLE HEALTH RULES

Health of Animals: No animal showing signs of infectious, contagious, or external parasitic disease will be allowed into the Pennsylvania Farm Show Complex & Expo Center. However, exhibitors who observe an animal that may present a health hazard to other animals are asked to report the stall location to the show committee. The official show veterinarian in consultation with Show Management shall be responsible for determining the health status of all animals. Animals showing evidence of infectious, contagious, or external parasitic diseases shall be removed by their owner from the show grounds at the direction of Show Management.

Veterinarian-Client-Patient-Relationship: By entry into the show, the exhibitor is confirming that he has established a Veterinarian-Client-Patient-Relationship for the animals he is exhibiting. A Veterinarian-Client-Patient Relationship is a relationship in which the veterinarian has assumed the responsibility for making veterinary medical judgments regarding the health of the animal and the need for veterinary medical treatment and the owner or caretaker of the animal has agreed to follow the instructions of the veterinarian in relation to zoonotic diseases.

Health Certification Documents: No animal will be allowed into the Pennsylvania Farm Show Complex & Expo Center unless they are accompanied by the required health certification documents. Additionally, the Certificate of Veterinary Inspection must be available for inspection upon request at all times while the animal is on the premises.

VETERINARIAN'S CHECKLIST - Pennsylvania Cattle

- Certificate of Veterinary Inspection:** Pennsylvania cattle must be accompanied by a Certificate of Veterinary Inspection signed, dated and issued by an accredited veterinarian within the thirty (30) days, prior to the date of arrival at the show.
- Cattle Identification Requirements:** All cattle for exhibition must be identified by a USDA-issued metal eartag; a breed registration tattoo if the tattoo is legible; a breed registration eartag; or an ISO-compliant 15-digit eartag (including RFID)
- No tuberculosis test is required.
- No brucellosis test is required
- VACCINATION RECOMMENDATION** - It is highly recommended that all animals entering the show be immunized against IBR, PI3, BVD, BRSV and rabies. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, BRSV and rabies be given after January 1, 2011

VETERINARIAN'S CHECKLIST - Out-Of-State Cattle

- Certificate of Veterinary Inspection:** Out-of-state cattle must be accompanied by a Certificate of Veterinary Inspection signed, dated and issued by an accredited veterinarian within the thirty (30) days, prior to the date of arrival at the show. The accredited veterinarian must send a copy of the Certificate of Veterinary Inspection to the State Veterinarian of the state of origin for approval.
- Cattle Identification Requirements:** All cattle for exhibition must be identified by a USDA-issued metal eartag; a breed registration tattoo if the tattoo is legible; a breed registration eartag; or an ISO-compliant 15-digit eartag (including RFID)
- TUBERCULOSIS REQUIREMENTS**
 - (a). Test-eligible animals shall be all cattle of all ages.
 - (b). If the animal originates from a tuberculosis free state or zone, no tuberculosis test is required.
 - (c). If the animal originates from a state or zone that is classified as Modified Advanced Accredited (MAA), the animal shall be tuberculosis test negative within the 60 days prior to the date of arrival at the show. The Certificate of Veterinary Inspection shall include all test results and dates of those tests.
 - (d). If the animal originates from a state or zone that is classified as Modified Accredited (MA), the animal shall originate from a herd which was negative on a whole herd test (all animals 12 months of age and older shall be tested) within the 12 months prior to the date of arrival at the show, and the individual animal to be exhibited (all ages) must be test negative at least 60 days after the whole herd test and within the 60 days prior to the date of arrival at the show. The Certificate of Veterinary Inspection shall include all test results and dates of those tests.
- BRUCELLOSIS REQUIREMENTS**
 - (a). Test-eligible animals shall be all unvaccinated cattle over eight months of age and calfhood vaccinated animals over 14 months of age. Steers are exempt from brucellosis testing requirements.
 - (b). If the animal originates from a brucellosis free state, no brucellosis test is required.
 - (c). If the animal originates from a Brucellosis Class A, B or C state the animal shall be brucellosis test negative within the 60 days prior to the date of arrival at the show.
- VACCINATION RECOMMENDATION** - It is highly recommended that all animals entering the show be immunized against IBR, PI3, BVD, BRSV and rabies. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, BRSV and rabies be given after January 1, 2011
