

# 2022 NJAS HEALTH REGULATIONS

Please do not call the American Angus Association with Health Regulation questions, we do not have those answers and will forward you onto the MO Department of Agriculture.

The following listed minimal health and testing requirements on livestock are for exhibition only and do not qualify livestock to be sold or moved to a new owner or destination. Complete set of regulations at: <https://s1.sos.mo.gov/cmsimages/adrules/csr/current/2csr/2c30-2.pdf>

## Certificate of Veterinary Inspection

- All animals exhibited must have a current health certificate/certificate of veterinary inspection (CVI) issued within thirty (30) days before the show. The certificate must be issued from the state of origin by a licensed accredited veterinarian. For breeding cattle, animals can be identified with registration tattoo with papers or official ID tag.
- **Please bring **TWO** copies with you. One for the vet to keep and one for the exhibitor.**
- *The animals must be individually identified stating that they have been examined and are free of contagious and infectious disease.*
- Animals with active lesions of ringworm with resulting loss of hair or warts easily visible without close examination will not be permitted to exhibit and shall be subject to isolation or expulsion depending upon the nature and seriousness of the disease.

## **Brucellosis:**

- Brucellosis free states: Breeding cattle may enter without a Brucellosis test.
- Brucellosis Class A states: All test-eligible animals must be tested and negative within thirty (30) days prior to entry except:
  - a. Cattle from a certified brucellosis-free herd. The certified herd number and the date of the last test must be listed on the Certificate of Veterinary Inspection
  - b. Steers. No brucellosis test required but must be individually identified and listed on a Certificate of Veterinary Inspection and state they are free from warts and ringworm as well as infections, contagious, and communicable disease.

**Tuberculosis:** all classes of beef cattle (including exotic bovids and bison), two (2) months of age and older, entering Missouri for exhibition must meet the following requirements:

- Tuberculosis free state: All beef cattle two (2) months of age and older may enter without additional testing requirements or entry permit.
- Tuberculosis less than free status states must meet the following requirements.
  - a. Must obtain an entry permit.
  - b. Must have a negative tuberculosis test within sixty (60) days of shipment.
  - c. Move from an accredited tuberculosis-free herd
  - d. Or move directly from a herd of origin that has had one (1) complete negative herd test within one (1) year

Entry permit is requested for any cattle entering from a Designated Surveillance Area (DSA) for Brucellosis. Call (573) 751-3377 after Brucellosis testing and health paper are complete for entry permit.
